Viewpoint information

Horizontal field of view: 75°

Bearing to closest turbine: 152.1° (T2)

Distance to closest turbine (m): 9,645m

Elevation: 141.6m

Photo Taken: 3:22pm on 12th of Dec 2022

Camera: Nikon D810, 50mm Prime Lens

Photo Coordinates: E: 764,575 N: 7,461,979

Projection: MGA Zone 55 (GDA 94)

Original Format: A1 Landscape

Turbine dimensions: 149 hub height, 172m rotor height = 235 tip height

* Photomontage and wireframe provide a 'representation' of the projects visibility for the purpose of discussion. The layout as shown may be subject to change in accordance with the planning process. The images provide a reasonable impression of wind turbine scale and distance to wind turbines; however, cannot be 100% accurate. A static image cannot convey wind turbine blade movement, different lighting, weather and seasonal conditions that vary through time.
