#### Summary of Epuron action items from CCC meeting 4

- 1. Provide an overview of the various powerline options considered for project.
  - Maps showing the various powerline options considered for the project is provided further in this presentation.
- 2. Provide estimate number of hectares of vegetation to be cleared for the preferred powerline route.
  - > Approx 125 hectares
- 3. Provide a guide as to why the Ulan powerline route was selected for the project.
  - > Selection considerations for Ulan powerline corridor is provided further in this presentation.
- 4. Implement a visitor feedback form to be available at the public display in Coolah and Cassilis.
  - Draft copy available for discussion.

#### Summary of Epuron action items from CCC meeting 4....(continued)

- 5. Establish an additional photomontage display at Merriwa Library.
  - > Arrangements yet to be finalised.
- 6. Organise a business information meeting in Merriwa (similar to Coolah meeting).
  - Scheduled to occur 21 January.
- 7. Actions arising from the Coolah Business Meeting.
  - > Ongoing.
- 8. Prepare summary of attendance and responses from Coolah Business Meeting.
  - Summary is provided further in this presentation.
- 9. Prepare draft letter on behalf of CCC for submission during exhibition of EA.
  - To be prepared.

#### **Development Update**

- EA responding to Adequacy was submitted to DPI in December 2013.
- Anticipate public exhibition early 2014.
- EPBC Act referral to be lodged early 2014.
- Arrangements to secure the powerline access route are progressing positively.
- Wind farm landowners continue transition to long term lease arrangements.
- Updating annual wind monitoring resource data and yield assessments.
- Consultation with community and stakeholders continues.
- Merriwa Business Meeting held 21 January.
- Epuron newsletter released December 2013 providing general project update and latest industry information.

#### **Grid Connection Options**

LEGEND

Existing

transmission line

Town Grid

option

33kV

66kV 132kV 330kV

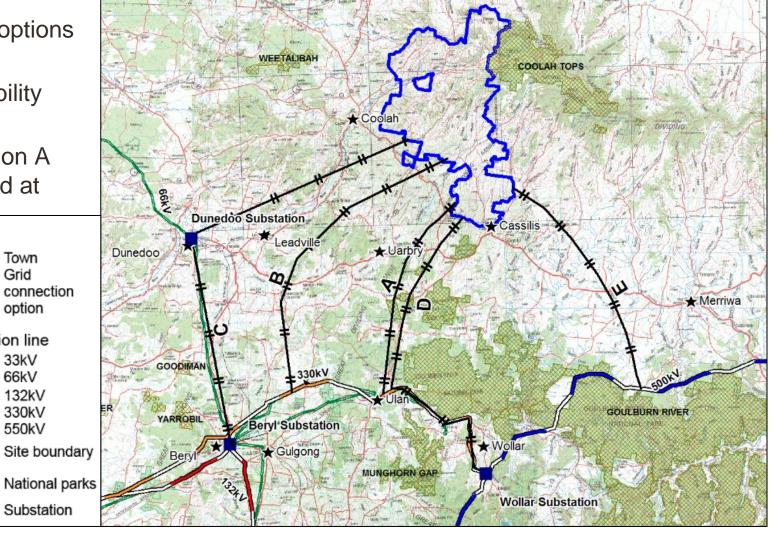

550kV

Six grid connection options were considered.

Technical and feasibility assessment.

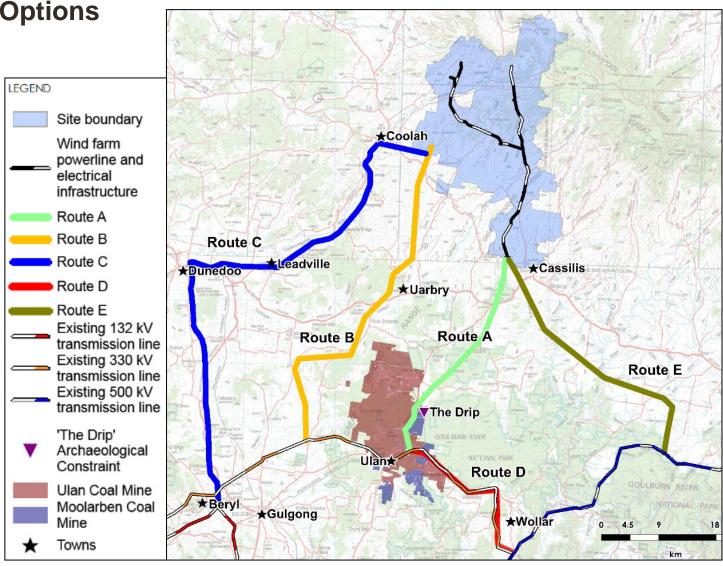

Grid connection option A selected as preferred at

330kV.

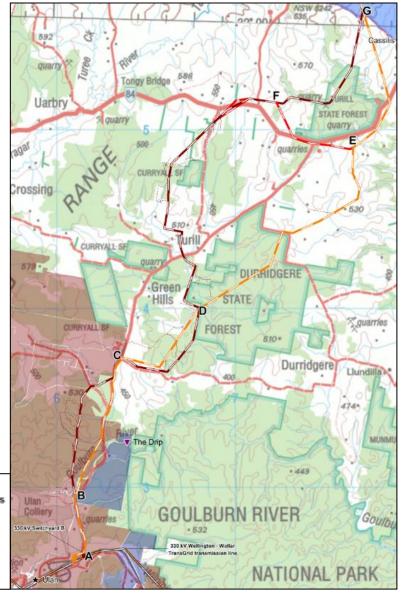

#### **Powerline Corridor Options**

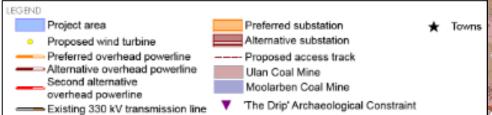

- Six powerline corridor options were considered
- Corridor A was selected for further development
- Connection enquiry lodged with grid owner Transgrid

#### **Powerline Route**

- A preferred and alternate powerline route has been identified
- Connecting into existing Transgrid 330kV transmission line near Ulan
- New overhead powerline will be single pole type structures
- 60m wide easement

#### **Guide to selection of Ulan Powerline Route**

- Key considerations for the selection of the Ulan powerline route as preferred include;
  - Overall length

- 35km (shortest)
- Number of land parcels
- 57 (second lowest)
- Number of land owners
- 11 (lowest)

- Dwellings within 1km
- 7 (second lowest)
- Estimated connection costs
- \$65 million (lowest)
- Land access constraints
- <u>low</u>/medium/high
- Environmental constraints
- low/medium/high
- > Grid connection constraints
- <u>low</u>/medium/high

- Other assessment notes;
  - > Assessed as most viable connection corridor option overall
  - Participating landowners willing to enter agreements
  - > There are land limitations proximate to Ulan and Moolarben mine operations
  - Traversing DSC Area
  - Sufficient connection capacity available

#### Summary of Coolah/Cassilis Business Meeting attendance & Response

- Total people in attendance 46
- Questionnaires completed 29.....represented by the following business categories;
  - Agriculture/Farming/Mechanical/Hardware 6
  - ➤ Food/Café/Shop/Supermarket 4
  - Accommodation/Hotel 2
  - Concreting/Electrical/Plumbing 6
  - ➤ Health/Beauty 2
  - ➤ Excavation/Earthworks/Civil 2
  - ➤ Accounting/Banking 1
  - ▶ Upholstery 1
  - ➤ Steel/Recycling/Welding 1
  - Printing/News/Photography \*
  - Weeds/Spraying \*
  - Real estate
  - General interest <sup>2</sup>

#### Summary of Coolah/Cassilis Business Meeting attendance & Response

- General comments received and issues raised include;
  - Difficulty to keep families and children in the area
  - Generally in favour of the project proceeding
  - Interest in wind farms generally and keen to work with industry in Australia
  - > Some concerned for ability of local community members to contribute goods and services
  - > A few attendees noted they would like to tour the wind farm during the construction phase
- Questions asked of group......

>	Do you have plans to grow your business	Yes	29 of 29
>	Are you interested to join with other businesses for project	Yes	27 of 29
>	Do you want to be involved in future business meetings	Yes	28 of 29
