

Boomer Green Energy Hub - 138 Wind Turbine Layout

130° Photomontage view facing South from Glenprairie Bypass Rd - Bruce Hwy Intersection - Viewpoint 2 (Wind Turbine Dimensions: 164m hub height, 175m rotor diameter - 251.5m tip height)

Aerial: viewpoint location and photograph direction shown by the pink marker.

Site Map: viewpoint location and direction shown by the pink marker.

Viewpoint information

Horizontal field of view: 130°

Bearing to closest turbine: 232.2° (T2)

Elevation: 84.8m

Photo Taken: 2:14 PM on 12th of Dec 2022

Camera: Canon EOS 6D Mark II, 50mm Lens

Photo Coordinates: E: 795,824 N: 7,473,367

Projection: WGS 84/UTM Zone 55S (EPSG:32755)

Original Format: A1 Landscape

Turbine dimensions: 164m hub height, 175m rotor diameter = 251.5m tip height

* Photomontage and wireframe provide a 'representation' of the projects visibility for the purpose of discussion. The layout as shown may be subject to change in accordance with the planning process. The images provide a reasonable impression of wind turbine scale and distance to wind turbines; however, cannot be 100% accurate. A static image cannot convey wind turbine blade movement, different lighting, weather and seasonal conditions that vary through time.
