11 March 2008

Maxine Taplin
Secretary
Silverton Common Trust
PO Box 835
Broken Hill NSW 2880

Dear Maxine,

I am writing to you in your capacity of Secretary of the Silverton Common Trust about the proposed Silverton Wind Farm. We are keen to ensure that we have provided your committee with ample opportunity to discuss either in writing or in person, any benefits you would like to see from or concerns you may have about the proposed wind farm.

We are currently progressing with specialist studies and finalising the layout of the wind turbines taking into consideration any constraints identified through archaeology, biodiversity and other studies. Upon completion of all of the studies we will lodge the planning application with the Department of Planning. When the Department has accepted the application and accompanying reports it will go on public exhibition.

I hope to come to Silverton on March 26 and would be interested to talk with any members of the Trust about the project. I am also writing to the Penrose Park Recreation Reserve Trust and the Silverton Village Committee and understand there may be a cross-over of personnel.

Would you let me know if the Trust would like to raise any issues or identify any particular benefits for consideration.

Yours sincerely,

Donna Bolton

Project Manager
